Membership Manager is the solution for any company tracking memberships. It was specially designed for the ethanol and biofuels industries.

Membership Manager tracks all of the viable information needed from addresses and phone numbers to social security numbers. In addition, it has the ability to perform stock splits, transfer shares between members and report dividend earnings.

This software has proven to be a very useful and beneficial tool for the ethanol and biofuels industries. Membership Manager is totally integrated with most accounting software so that information can be transferred.

Ethanol companies who are currently using this software are impressed with the information it tracks and time that it saves.

- Search, enter and edit member information easily
- Track lender information
- Transfer shares to members or multiple members
- Perform stock splits
- Track shares back to the original owner
- Transfer information into accounting software for dividend payments.
- Print actual certificates/stocks
- No more spreadsheet manipulation
- Print mailing labels
- Pre-designed reports or request a custom designed report
- Equity drive feature
- Track notes or communication
- Commodity pool
- Retained earnings
- Track price per share
- Add new members
- Track payments

Don't delay, call Integrated Business Solutions for your free tour. 888.697.3060

It is not a question of "IF" you'll need this software, just a matter of when.
